Not illustrated. 1904 Excerpt: .which salicylic acid was substituted for the acetanilid, was once naively described to me by its maker, who appeared to have no idea that salicylic acid was capable of producing any ill consequences. Similar objections are to be made to the rheumatism cures which are so abundant in the stores. Many of these contain sodium salicylate, others potassium iodid. Neither of these substances can be taken indiscriminately or for a considerable period without mischief. Salicylic acid may depress the heart and injure the nervous system. It is much more effective in acute than in chronic rheumatism, and is an agent which should never be taken upon the advice of irresponsible persons. The phenomena of iodism are familiar to us all, and are not infrequently excited by comparatively few doses. The continual use of alkalies weakens the heart and impoverishes the blood. Chloral is not a substance..
