Optimization Techniques

Filesize: 4.47 MB

Reviews

Great e book and beneficial one. It is amongst the most awesome pdf i actually have read through. You wont feel monotony at at any time of your own time (that's what catalogs are for relating to if you request me).
(Dorothy Daugherty)

OPTIMIZATION TECHNIQUES

Springer Mai 1975, 1975. Taschenbuch. Book Condition: Neu. 235x155x28 mm. This item is printed on demand - Print on Demand Titel. Neuware - Identification Inverse problems for partial differential equations: A stochastic formulation.- Key problems in the theory of centralized interaction of economic systems.- Some statements and ways of solving dynamic optimization problems under uncertainty.- A new algorithm for Gauss Markov identification.- On optimality criteria in identification problems.- Nonstationary processes for mathematical programming problems under the conditions of poorly formalized constraints and incomplete defining information.- Dynamic models of technological changes.- Identification and control for linear dynamic systems of unknown order.- Group choice and extremal problems in the analysis of qualitative attributes.- Studies in modelling and identification of distributed parameter systems.- Recursive solutions to indirect sensing measurement problems by a generalized innovations approach.- A system of models of output renewal.- Bilinear social and biological control systems.- A problem from the theory of observability.- Some questions of the modelling of complex chemical systems.- Evaluation model of humanistic systems by fuzzy multiple integral and fuzzy correlation.- Penalty function method and necessary optimum conditions in optimal control problems with bounded state variables.- Multilevel optimal control of interconnected distributed parameter systems.- Time optimal control problem for differential inclusions.- Application of maximum principle for optimization of pseudo-stationary catalytic processes with changing activity.- Approximate solution of optimal control problems using third order hermite polynomial functions.- Optimal stabilization of the distributed parameter systems.- About one problem of synthesis of optimum control by thermal conduction process.- About the problem of synthesis of optimum control by elastic oscillations.- On the partitioning problem in the synthesis of multilevel optimization structures.- On the problem of an optimal three-dimensional aircraft motion.- A general stochastic equation for the non-linear filtering problem.- On sufficiency of the necessary optimality of L.S. pontryagin's maximum principle analogues type.-...
