

# Enzymes, Receptors, and Carriers of Biological Membranes

Filesize: 3.42 MB

## ***Reviews***

*If you need to adding benefit, a must buy book. It really is writer in straightforward words and phrases rather than difficult to understand. Your life period is going to be change the instant you total reading this ebook.*

*(Letha Okuneva)*

## ENZYMES, RECEPTORS, AND CARRIERS OF BIOLOGICAL MEMBRANES

To download **Enzymes, Receptors, and Carriers of Biological Membranes** PDF, please follow the button below and download the ebook or have access to additional information which might be relevant to ENZYMES, RECEPTORS, AND CARRIERS OF BIOLOGICAL MEMBRANES ebook.

Book Condition: New. Publisher/Verlag: Springer, Berlin | A Laboratory Manual | With contributions by numerous experts | This manual follows at a distance of 3 years the previous one entitled Membrane Proteins, and, like its predecessor, it is the result of an International Advanced Course sponsored by FEBS, SKMB and SNG, which was held in Bern in September 1983. The experiments offered to the students in the course had to be largely up dated or chosen from new areas of membrane research, because of the substantial and rapid development of the field. Using the protocols of the course, the participants (graduate students, postdoctoral fellows and also senior scientists), in most cases not at all expert in biomembrane research, were able to repeat all the experiments successfully. Those few protocols which for some reason did not fulfill the role we expected were modified. These protocols have now been collected in this manual, which we are able to offer to a number of biology, biochemistry and biophysics laboratories, hoping that the selected number of methods which have been successfully used during the Advanced Course may be useful to them. This manual is also intended for teachers of practical classes, who may use it as a text book and as source of selected references, collected not in the library, but in the laboratory, from the notebooks of the young researchers who have contributed so much to the success of the Course. | I. Analytical Separation Techniques.- Electrophoretic Transfer of Chloroplast Membrane Proteins from SDS-Gels onto Nitrocellulose and Their Immunological Detection.- Investigation of Amphiphilic Nature of Different Forms of Acetylcholinesterase from *Torpedo Marmorata* by Charge Shift Crossed Immunoelectrophoresis.- Separation of Hydrophobic Membrane Proteins by Phase Partition: Characterization by Two-Dimensional Gel Electrophoresis and Silver-Staining.- Quantitative Analysis of Plant Membrane...
