Excerpt: .the other hand, it deals rith phenomena only and has nothing to ay about the noumenon, or the ultimate eality which underlies the universe as t impresses itself upon our senses, its ignostic position is held up as a proof hat it has no better grounds than faith itself for its interpretations and mnciples. This is a curious medley of opinions. Dn the one hand science is accused of discovering miracles, and on the other t is accused of helpless ignorance. Both views are, of course, quite wrong. There is nothing more miraculous ibout, say, Marconi s wireless telegraphy than there is about a steamengine. Clerk-Maxwell and others worked out, by higher mathematics, the theory of electric waves in the ether; Hertz proved their conclusions experimentally; and Marconi put Hertz s experiments on a commercial basis. It is surely a far cry from this...
