Good wound care is essential to promoting comfort and dignity; yet with limited studies devoted to skin conditions at end of life, evidence-based guidelines specific to wound care are limited. It starts with the BUILD program, which looks like a bit of classic palliative care. Build trust and respect with patient and family; Understand how wound impacts on them; Information about wound care and outcomes; Listen to the patient; and Develop a plan with the patient. . This book would be useful to the experienced professional as a quick treatment lookup tool, and as a learning guide for those less experienced. - Dr Roger Woodruff, IAHP International Association for Hospice Palliative Care (IAHP).
